What is the BECE Junior WAEC Exam?

Before diving into the 2014 time table, it's important to clarify what the BECE Junior WAEC exam entails. The Basic Education Certificate Examination is administered by the West African Examinations Council to assess the academic readiness of junior high school students before they proceed to senior high school. It covers core subjects such as English Language, Mathematics, Science, Social Studies, and various elective subjects.

The 2014 timetable was carefully structured to cover all necessary subjects over a concise period, usually spanning one to two weeks. Each exam was scheduled to allow students ample revision and rest between papers. Here's a typical breakdown of how the timetable was structured:

Key Subjects and Exam Dates

****English Language:**** Usually scheduled at the beginning of the examination period, given its importance as a core subject.

****Mathematics:**** Often placed soon after English to maintain a logical progression between language and numerical skills.

****Integrated Science:**** Scheduled mid-way to allow students to balance science revision with other subjects.

****Social Studies:**** Slotted towards the later part of the examinations.

****Elective Subjects:**** These included subjects like French, Technical Skills, and

Religious and Moral Education, arranged strategically throughout the exam period.

This sequencing helped students prepare systematically, focusing on core subjects first before moving on to electives.
